

City National Rochdale Municipal High Income Fund

CLASS N QUARTERLY MUTUAL FUND REPORT

Symbol: **CNRNX**

INVESTMENT OBJECTIVE

The Fund seeks to provide a high level of current income that is not subject to federal income tax.

INVESTMENT STRATEGY

The Fund typically invests in medium- and lower-quality bonds, which are bonds that are rated BBB+ or lower by Standard & Poor's Ratings Services ("Standard & Poor's"), are comparably rated by another nationally recognized statistical rating organization ("NRSRO") or, if unrated, are determined by the Fund's sub-adviser to be of comparable quality. The Fund's typical investments include non-investment grade debt securities (commonly called junk bonds), which are rated BB+ or lower by Standard & Poor's, comparably rated by another NRSRO or, if unrated, determined by the sub-adviser to be of comparable quality. The Fund may invest an unlimited amount of its total assets in non-investment grade debt securities. Although the Fund's sub-adviser considers credit ratings in selecting investments for the Fund, the sub-adviser basis its investment decision for a particular instrument primarily on its own credit analysis and not on an NRSRO's credit rating.

Investing involves risk including loss of principal. Bonds and bond funds are subject to interest rate risks and will decline in value as interest rates rise. Investing in securities that are not investment grade offers a higher yield but also carries a greater degree of risk of default or downgrade and are more volatile than investment grade securities, due to the speculative nature of their investments. No investment strategy can guarantee a profit or protect against loss in periods of declining values. There is no guarantee that the Fund's income will be exempt from federal or state income taxes. Capital gains, if any, are subject to capital gains tax. Income from municipal bonds may be subject to the alternative minimum tax. Diversification does not protect against market loss.

This material represents an assessment of the market environment at a specific point in time and is not intended to be a forecast of future events or a guarantee of future results.

The Barclays High Yield Municipal Index is an unmanaged index made up of bonds that are non-investment grade, unrated, or rated below Ba1 by Moody's Investors Service with a remaining maturity of at least one year. It is not possible to invest directly in an index.
