

City National Rochdale Intermediate Fixed Income Fund

CLASS N QUARTERLY MUTUAL FUND REPORT

Symbol: **RIMCX**

INVESTMENT OBJECTIVE

The Fund seeks current income and, to the extent consistent with this goal, capital appreciation.

INVESTMENT STRATEGY

The portfolio seeks to earn a total return comparable to that of a universe of investment-grade U.S. government, agency, and corporate bonds maturing in ten years or less. Securities selected for investment provide an attractive rate of current income and/or capital appreciation based on the maturity, duration (a measure of price sensitivity in relation to changes in interest rate risk), and credit quality of the issuer relative to comparable issuers. The intermediate-term structure (average duration of 3 to 10 years) seeks to provide for a generally higher rate of current income and a generally greater risk versus that available from debt obligations with shorter maturities.
